Documentation tool

Plan

This wizard allows you to document how you work on your project in a structured way.   In order to document your project properly, you should include the following steps: Plan   Project work   Weekly Reflection   Goals assessment   Done   It's important you take notes during your actual project work. You'll make good use of them here. Start by submitting the title of your project:

Week 11

Project Work

Write your project description here:

Hal yang dipelajari di WEEK 11

Weekly Reflection

Write your weekly reflection here

Saya mempelajari mengenai perbedaan mengenai adaptive dan responsive. Saya juga mempelajari mengenai material design, cupertino, dll. Saya juga mulai paham dengan konsep widgets.
